SETTING

Method1) Using the headset

You will hear **a double beep sound.**

"Configuration menu"

Method2) Using the Sena Device Manager

Connect the headset to your computer via a USB cable. Launch the Sena Device Manager and click **DEVICE SETTING** to configure the headset settings.

For details about downloading the Sena Device Manager, refer to the leaflet included in the package.

Method3) Using the Sena Smartphone App

1. On your smartphone, download the Sena Smartphone App for Android or iPhone from Google Play or App Store.
   Refer to **www.sena.com/headset-app/** for more details.
2. Pair your smartphone with the headset.
3. Run the Sena Smartphone App. Swipe the screen to the right and tap **Settings** to configure the headset settings.

TROUBLESHOOTING

Factory Reset

If you want to restore the Tufftalk to factory default settings, press and hold the **Phone Button** for 10 seconds. Tap the **Jog Dial**. The headset automatically restores the default settings and turns off.

Fault Reset

If the Tufftalk is not working properly for any reason, push the pin-hole reset button located below the left ear cup.
