

Custom Design

Beyond the most extensive off-the-shelf sub-GHz radio module portfolio in the industry, we also offer rapid customization and fully bespoke design services that deliver leading RF solutions to meet your exact needs.

We design and manufacture solutions ranging from very low-power radios to high-performance systems up to 5 watts. Our expertise spans ISM bands (industrial, Scientific & Medical) and includes HF and UHF solutions up to 2.4GHz – giving you flexibility for diverse applications.

With over 40 years of experience serving global leaders in aerospace and defence, medical and industrial sectors, Radiometrix combines technical excellence with one of the fastest turnaround times in the industry.

We ensure compliance with stringent performance and regulatory standards while helping you accelerate time-to-market. Our products are renowned for reliable performance when it counts.
